THE MOSSIICII PLAYER GUIDE:

Installation Commands

To run the given Python code on any other computer, you will need to install the following packages. You can do this by running the following commands in the command prompt or terminal:

```bash
Copy code
pip install pygame mutagen pillow SpeechRecognition PyQt5
```

Guide for Voice Commands

The music player can respond to specific voice commands. Here's a guide on how to use them:

1. **Play Next Song**
   - Command: `"Play next song"`
   - Function: Skips to the next song in the playlist.
2. **Play Previous Song**
   - Command: `"Play previous song"`
   - Function: Goes back to the previous song in the playlist.
3. **Pause the Song**
   - Command: `"Pause the song"`
   - Function: Pauses the currently playing song.
4. **Resume the Song**
   - Command: `"Resume the song"`
   - Function: Resumes the currently paused song.
5. **Raise the Volume**
   - Command: `"Raise the volume"`
   - Function: Increases the volume by 10%.
6. **Lower the Volume**
   - Command: `"Lower the volume"`
   - Function: Decreases the volume by 10%.

Using the Voice Commands

1. **Ensure Microphone Access**: Make sure your microphone is working and accessible to the program.
2. **Timing**: Voice commands are checked every 5 seconds, so there might be a small delay between giving the command and the action being executed.
3. **Speak Clearly**: For the best recognition, speak clearly and avoid background noise.

These voice commands will control the music player as described above.
